

K

COMPUTER BOOK

make a computer

_____s Computer Kit

Hey! I'm Judoka, your Kano
companion. Ready to go?
Take out the pieces!

Keyboard + Mouse

HDMI Cable

Power Pieces

Memory Card

Stickers

DIY Speaker

Custom Case

Raspberry Pi

This is your computer's brain

It's tiny, but powerful

Let's give the brain new powers

Grab the memory card, then slide out the micro card

Turn the brain over

Slide in the micro card securely

To keep it strong and safe,

let's make a case

Grab the sides...

...and line them up

Slide them together until they click

Now you have a brain with armor and memory!

Now let's give it a voice

Pick up the speaker

Flip it over

These parts work together to sing songs

Your computer can turn electricity into sound and light!

Let's borrow electrical power from these two pins

Make sure you connect it like this

Choose the pins carefully!

Now clip the speaker to the case

Plug in the blue cable

Amazing! A cool computer that can rock out

Sound travels
at 762 mph
(1,225 km/h)

Let's connect a screen

Got a Screen Kit?
Check that book for
help connecting

Grab the yellow HDMI cable

Find a display or TV with this kind of plug

Have a different
type of plug?
Visit help.kano.me

Connect them

Now your computer can talk, display, and connect

Let's give it some new ideas. Grab your keyboard!

Pick it up, flip it around, and push the power button

Take out the white piece

Don't use the red wire yet
- that's for charging

This USB has a radio antenna!

Plug the piece into your computer

Now the keyboard and brain are connected

Almost there...

Let's bring it to life! Grab the red pieces...

...and plug the big end in to the power plug

Now grab the small end and connect it to your computer

Put the power plug into a wall socket

Go back to page 10 if there's no light

And don't forget to use your stickers

Your keyboard has hidden powers

Activate the white functions by holding [FN]

Try these combinations

Run code
Make it happen!

Mouse speed
Medium or fast

Share creations
Show off to friends

Useful for coding

All of these keys are frequently used when coding, so make sure to learn them

The keyboard needs to be charged from time to time

To do so, plug the red cable into the power plug, or to your computer

**Regulatory Compliance Information
Compliance Statement**

The Kano kit conforms with relevant provisions of the RoHS Directive for the European Union.

European Union (EU) Compliance Statement:

This product conforms with the requirements of European Directives:

Keyboard: 1999/5/EC

Raspberry Pi: 2004/108/EC

PSU: 2006/95/EC and 2004/108/EC.

Europe-EU Declaration of Conformity

This product has been tested and found to conform with the limits for Class B Information Technology Equipment according to the European Standard:

Keyboard: EN301489 / EN300 325 / EN62479 / EN50960

Raspberry Pi: EN55022

PSU: EN60950 / EN55022 / EN61000 / EN55024

Speaker: EN60960 / EN55022 / EN55024

Federal Communications Commission (FCC) Statement:

The Kano kit conforms with part 15 of the FCC rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference and
- (2) This device must accept any interference received.

Raspberry Pi: FCC ID: 2ABCB-RPi32

Speaker: FCC ID: 2ACVK-14S1100A

Keyboard: FCC ID: 2ACVK-KB-R101K

Important:

Changes or modifications to this product not authorized by Kano Computing Ltd. could void the FCC compliance and negate your authority to operate the product.

Industry Canada (C) Statements

Keyboard: This device complies with RSS 210 of Industry Canada. This device meets all requirements of the Canadian Interference-causing equipment regulations.

Raspberry Pi: This Class B digital apparatus conforms with Canadian ICES-003 specifications.

PSU: This device complies with the Canadian Class B specifications CSA C22.2 and UL 60950-1.

Speaker: This Class B speaker apparatus conforms with Canadian ICES-003 specifications.

Australia Statement:

Keyboard: This product complies with the requirements of Australian AS24268.

Raspberry Pi: This product conforms with the Australian Class A Emissions requirements.

PSU: This product complies with Australian standard AS/NZS 60950 and the requirements of all relevant parts of

AS/NZS 4414 of Australian Regulatory Compliance Marking.

Therefore, this product conforms with the requirements of AS/NZS 4414:2002.

UK Declaration

Therefore, this product complies with the requirements of European AS/B STD-T33.

Further, this product complies with the requirements of Japan Technical Requirement Appendix 12 J55022 / J55022 and Appendix 4 of the Enforcement Regulations (AC Electric Appliances).

Further, this product conforms with the requirements of Japan Technical Requirement Appendix 12 J55022 / J55022.

European Union – Disposal information

In Common with all Electrical and Electronics Equipment (EEE), the Karo Power Jo Kit should be disposed of separately from household waste. The separate collection and recycling of your product at the time of disposal will

help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment.

You can find warranty and return policies on our website: www.karo.me/pages/terms-of-supply
